Follow us on Facebook for exclusive deals, news and giveaways!

All six Hinton Mills locations are open Mon. – Fri. 7:30-5:00, Saturday, 7:30-12:30

We started doing business out of our new Mt. Sterling location on July 1. Hinton Mills Mt. Sterling is located at 1132 Levee Rd., formerly the site of AgWood, a longtime, family-owned feed and farm supply business. Tyler Frederick, who has served our customers for several years out of other Hinton Mills locations, is serving as manager of the new location.

Two former AgWood employees who worked at the location under previous ownership, Linda Webb and Dexter Barnes, have joined the Hinton Mills team and will be serving customers as well. Both Linda and Dexter bring a great deal of experience and intangibles to our team and we feel blessed to have them as part of the Hinton Mills Family. Please be patient as we add inventory and make needed facility improvements. We are extremely excited about the opportunity to better serve Mt. Sterling and the surrounding community. Call us at (859) 498-1999.

Hinton Mills Mt. Sterling: We're open for business.

A Look Back at What the Hinton Mills Team Did in July 2022

 See more pictures of what the Hinton Mills team did this past month on Facebook

FAITH • FAMILY • FRIENDS • FARMING

Adam spent a day serving as a judge for Kentucky Farm Bureau Young Farmers Excellence in Agriculture contest. He served alongside two of Kentucky's most influential women in agriculture, Linda McClanahan and Savannah Robin.

Hinton Mills Mt. Sterling team member Linda Webb attended the Kentucky Association of Conservation Districts Annual Meeting. She and her husband stopped for a picture with Agriculture Commissioner Ryan Quarles.

Dwight Leslie and Bud Hinton spoke at the Fleming County Cattlemen's meeting. They shared information about the best fall seeding practices as well as ways to make the most profit with the least expense.

Team member Rick Morris represented Hinton Mills in community parades in Mount Olivet, Maysville, and Tollesboro during July. Thanks Rick!

Even though it's been a lot of work getting the new Mt. Sterling location up and ready for customers, we can't say it hasn't been interesting - just ask Tyler Frederick, Travis Jones, and friends.

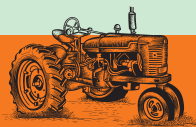

Hinton Mills Employee Spotlight *Stephen Richardson*

In the nearly two years that Stephen Richardson has been part of the Hinton Mills team, he has showcased his great customer service and people skills. Even though he's originally from Harrison County, Stephen resided and worked in Knott County for many years. Stephen taught at Knott County Central as their agricultural educator for 23 years and then later transitioned into administrative roles. After retiring from education, Stephen utilized his agricultural background and education to work at Lowe's in their horticultural department. Stephen recently returned to his hometown of Cynthiana and was brought on to work in the office at our Cynthiana location.

Stephen gives great care to customers in making sure they have what they need to get the job done. His daily operations include ordering feed and other supplies, contacting vendors, and helping fulfill the orders of customers. Stephen says that he appreciates how dedicated Hinton Mills is to caring for both their customers and employees and he likes seeing how the entire Hinton family is so involved with the business. Stephen's favorite thing about his time at Hinton Mills is getting to reconnect with old friends, from when he grew up in Cynthiana years ago, who are now Hinton Mills customers.

When he's not working at Hinton Mills Cynthiana, you can find Stephen out on his farm. Stephen has grown up raising tobacco, hogs, meat goats, and Simmental cattle. He still enjoys farming alongside his family. Another passion of Stephen's is deer hunting. Stephen has been a deer hunter for almost his entire life. He takes pride in helping manage the health and growth of deer by providing good quality supplemental nutrition on his farm. Stephen uses Antler Builder deer feed, plot seed, and other nutritional products to make the deer healthier overall and to increase antler growth. Stephen says that the Antler Builder products have improved the deer on his farm as well as on the farms of his customers.

Stephen encourages his customers to utilize Antler Builder products to supplement deer and provide for their nutritional needs. He loves seeing game camera and harvest pictures from his customers as well as sharing his own. Stephen encourages you to check into Antler Builder premium deer products in order to grow and attract trophy quality bucks.

Save the date: The 19th annual FFA Tractor Parade is Friday, October 7th at 1:00 p.m. in Flemingsburg. Can you bring your tractor and help us beat the 195 total entries we had last year?
