Hinton Mills Crop Services - Farming Alongside You

Growers put a lot of confidence in a retailer's recommendations, and that's something we take very seriously at Hinton Mills. We know that the right advice will result in a more profitable operation, but it takes more than advice to get the job done. That's why our crop services can be a good choice.

With the high cost of inputs, matching the correct product to the job at hand and particularly matching fertilizer, chemical and seed recommendations to a certain farm situation is of the utmost importance to a farmer's profitability. At Hinton Mills we stay current on the latest products and technology and our team can comfortably make the right recommendations.

We have experienced operators to apply fertilizer and chemicals in an accurate and timely fashion, taking pressure off the grower. Our crop services give you the extra help you need when you need it. Contact us to learn more about custom spraying, spreading or seeding.

#HintonMillsLovesFFA

We love the FFA and have a longstanding tradition of giving \$1 to local FFA chapters for each Hinton Mills apparel item that we sell. During the month of February 2024, we will donate an additional \$1 to Kentucky FFA for each picture we are tagged in on Facebook where you or a family member are wearing a Hinton Mills shirt or hat!
