All six Hinton Mills locations are open Mon. – Fri. 7:30-5:00, Saturday, 7:30-12:30 - Closed Thanksgiving Day

Let us not become weary in doing good,
for at the proper time we will reap a
harvest if we do not give up.
- Galatians 6:9

At Hinton Mills, November is one of our favorite months. During this month we celebrate Veteran’s Day, Thanksgiving, and harvest. For our customers who farm, harvest is a busy but welcome time of year when you start to see the long-anticipated fruits of your labor. For our team, harvest time is usually a reminder that customer demand for feed will increase over the colder months. That means it’s a busy season at Hinton Mills with more feed production in our mills and more deliveries to the farm families we serve. Above all, harvest reminds us of how thankful we are that our customers value the quality products and services we provide, and that we have an amazing team who helps meet these needs!

Whether you’re a first-time customer or an old friend, we are thankful to have the opportunity to serve you. We don’t take our relationship for granted. We appreciate your trust in our team and for continuing to let us work to earn your business.

At Hinton Mills we often say, “you spend more time with your work family than you do with your home family - so make it a good family.” We have been blessed with a team made up of exceptional people. We are proud to have such a hardworking and experienced team to help provide you with the thoughtful advice and service you’ve come to expect from Hinton Mills. We are truly thankful for our amazing team!

Lastly, we remain thankful to work in agriculture and live in a country where so many have fought for our continued freedoms. Today and each day throughout our 104 years in business, we have remained thankful to celebrate Faith, Family, Friends, and Farming. During this season of harvest and thanksgiving, we don’t want to miss the opportunity to say “THANK YOU” for helping allow us to do so!

Happy Thanksgiving!

-Hinton Family

Announcing

Hinton Mills Century, Heritage, and Legacy Minerals

Better genetics, better-quality hay and pasture, and properly supplemented nutrition allow cattle to perform better. Higher grain prices create a need and expectation of higher performance from cow herds. Don't let mineral adequacy limit your herds profitability. Most commercial mineral brands have the essential elements in adequate volumes. However, they are too often derived from marginally available sources.

Higher feed and all other expenses present the need for better cattle performance causing Hinton Mills to seek to supply improved mineral supplementation. Hinton Mills is proud to announce a new mineral project with one of our most reliable and trusted cattle nutrition partners: Burkmann Nutrition.

The best news: We have been able to improve the quality of our mineral products without increasing prices. We now have mineral packages that match your performance expectations.

To reduce your costs even more we recommend:

1. Feed a free choice mineral balanced for your specific feeding program.
2. Calculate the actual consumption level compared to the recommended consumption level.
3. Feed a mineral with mineral sourced from ingredients with higher availability to the cow.
4. Keeping a continuous supply, refilling feeders weekly.
5. Control mineral consumption by moving mineral feeders further from the water source.
6. Flush and clean automatic cattle waterers frequently.

HAPPY NOVEMBER BIRTHDAYS TO THESE
HINTON MILLS TEAM MEMBERS!

A Look Back at What the Hinton Mills Team Did in October 2022

See more pictures of what the Hinton Mills team did this past month on Facebook

FAITH • FAMILY • FRIENDS • FARMING

The Fleming County FFA tractor parade, ag week, and Feed Days bring our community together to celebrate our agricultural heritage, our rural values, and - one another. Special guests this year included Miss Kentucky Hannah Edelen, Attorney General Daniel Cameron, Ambassador Kelly Craft, Senator Steve West, Rep. Matt Koch, and many others. Participants in the parade came from across the state this year too - helping us shatter our record for the most entries in the parade during our 19-year tenure, with over 240 entries this year. We are proud of this event and thankful for everyone who does their part to make it happen.

This year during Fleming County's annual Agricultural Education Week around 30 FCHS students and our friends at Kentucky Ag in the Classroom taught all Fleming County K - 6th classrooms about the Kentucky farms that feed us. All our elementary school students also participated in virtual farm tours - consisting of a short video, a book, and activity. Matt Ingram from Kentucky Farm Bureau and Commissioner of Agriculture Ryan Quarles spoke to the same FCHS who volunteered during Ag Week in our elementary classrooms. Simons Middle Schools students got to participate in their annual Rural & Ag Safety Day - learning about important things like tractor safety (taught by our own Joe Fraley)

Thanks to your generosity, during our recent multi-county Cattlemen's meeting, we were able to announce a donation of over \$26,000 to the nine-county Mountain Cattlemen's Association for flood relief efforts. These dollars were a combination of donations from Hinton Mills customers, suppliers, and team, as well as those from cattlemen representing over a dozen counties at the meeting held during Feed Days. Special thanks to the Fleming County Cattlemen for co-sponsoring the meeting, and to the Kentucky Cattlemen's Foundation for their \$10,000 contribution. Also, a sincere thank you to Arch Sebastian, Reed Graham, and other members of the Mountain Cattlemen for attending the event and sharing your story. The program was presented by Burkmann Nutrition.

Stephen Flynn, manager of Hinton Mills Flemingsburg location, participated in the recent Fleming County FFA donkey basketball game. Stop in and get an autograph and your picture made with Stephen while they're still free!

Several members from the Hinton Mills team attended Fleming County Rotary's Taste of Fleming County to raise money for local scholarships and the community food distribution.

Excuse our hair!

Last year, nearly 30 Hinton Mills Team members participated in our Team Hinton No-Shave November program to raise awareness and money for cancer research. We will be continuing this fundraising event again this month. Interested in participating or donating? Ask one of our team members for more information.

"Old Time Christmas Event"

DECEMBER 3RD FROM 8:00 AM TO 12:30 PM
AT FLEMING COUNTY FARM SUPPLY

Kids can enjoy coloring, milk & cookies, a letter writing station (for letters to Santa) and making their own ornaments - while supplies last. Santa & Mrs. Claus plan to be there from 9 a.m. to noon.

We hope you'll join the Hinton Mills team for an exciting morning of fun and Christmas festivities for the whole family. Grab the camera and get down to the Flemingsburg, because Mr. and Mrs. Claus are coming to town.

As is tradition, you'll also be able to pick up a free bag of reindeer feed to put out for Santa's sleigh team to guide them to your home. We will have our special reindeer feed available on that morning and through December 24th, while supplies last.

Shop special items like our annual commemorative Hinton Mills Christmas Ornaments (where once again all proceeds from their sale will benefit the Shop with a Cop program) and other unique Hinton Mills Christmas items.
